

GETTING THE RIGHT SUPPORT

If you are uncertain what to ask your urologist, here are some suggested questions. Your urologist will be the best medical professional to advise you further.

- 1 What are the signs and symptoms that I have overactive bladder?
- 2 Why am I faced with an overactive bladder?
- 3 Is this condition common amongst others?
- 4 Are there ways for me to manage my overactive bladder?
- 5 What type of medications will be able to manage my situation?
- 6 How quickly will the medications work for me?
- 7 How will my conditions improve upon taking action?
- 8 Once my condition improves, do I still have to continue taking the medication?
- 9 Are there lifestyle changes I can make to improve my situation?
